## **MICROS TO PROVIDE OPERA ENTERPRISE SOLUTION FOR RENO'S NEW SIENA HOTEL SPA CASINO**

### ***MICROS and ACRES Gaming will develop XML-based Casino interface***

**Columbia, MD**—June 25, 2001—MICROS Systems, Inc. (Nasdaq:MCRS), a leading provider of information technology solutions for the hospitality industry, has been selected to install its OPERA Enterprise Solution at the new Siena Hotel Spa Casino opening this summer in Reno, Nevada. The \$70 million, 214-room hotel will utilize the OPERA Property Management System, OPERA Sales & Catering System, OPERA Quality Management System, and OPERAPalm remote service module, all operating from the same database. MICROS is also working with ACRES Gaming Incorporated (NASDAQ: AGAM) to develop a new interface that will link player activity in all areas of the property, offering guests single-card convenience for access and spending, and facilitating more focused marketing for the property's management team.

OPERA is a fully integrated suite of products consisting of modules that can be easily added or expanded allowing effective and easy deployment from smaller operations to global, multi-branded hotel chain environments. OES can be deployed in any size environment, from a single property with just Front Office to a large, full service hotel with Sales & Marketing, Catering, Revenue Management, Quality Management, Back Office, and Materials Management. In addition, the OPERA Enterprise Solution offers products for a hotel chain's corporate office, including our Central Reservations Systems for both centralized guestroom and function space sales, the Enterprise Information System, and the Customer Relationship Management (CRM) package, specifically designed for the hotel industry.

Jeff Weingrad, Vice President – Independent Hotel Business Unit for MICROS, stated, “This is our first OPERA installation in the Nevada hotel-casino market, and it’s been a great opportunity to work with Siena from the ground up. We are providing an excellent suite of the most advanced products in the marketplace, meeting all of the property’s needs for integration of multiple revenue centers.”

“We selected MICROS and its OPERA Enterprise Solution based on the company’s solid reputation for products and customer service,” said Patti Larson, Siena Hotel Spa Casino’s Director of Hotel Operations. “We were impressed with the superior functionality of the OPERA system and its ability to grow along with us. We are also pleased to have MICROS working with ACRES Gaming Incorporated to write a casino interface that will enable guests to use their room keys as their player tracking key for casino systems as well as their charging key for point-of-sale locations throughout the property. This is an innovative collaboration that will streamline our management and heighten our guests’ experience.”

### ***About Siena Hotel Spa Casino***

Scheduled to open in July 2001, Siena Hotel Spa Casino is one of the nation’s finest boutique resorts. Siena is a one-of-a-kind hotel with a unique combination of services and amenities, including a full-service day spa, high-energy 24-hour casino, eclectic art by internationally renown artists, riverside fine dining, intimate seven-course gourmet meals with wine pairings, and Northern Nevada’s most extensive wine collection house in the Enoteca. Designed for the discriminating traveler, Siena will offer 214 upscale rooms and suites, including an all-suite butler floor. In-room amenities include all the latest technological aspects, including high-speed Internet access, Web TV and safes with chargers for laptops and cell phones. The resort is located on the banks of the Truckee River, just a short stroll from downtown Reno. Siena is a privately funded venture by Wild Game NG. For more information, call 1-877-SIENA33 (877-743-6233), or visit [www.sienareno.com](http://www.sienareno.com).
